WHY DO YOU NEED A PROFESSIONAL WEBSITE

One of the most important places where you can present your brand and creativity is a professional website.

Social media, although necessary, are primarily a place of contact with your fans.

To be able to fully present your services and attract new customers, a business card in the form of a website is essential.

Thanks to properly structured content, clear structure and SEO, you can reach new customers and recipients faster and more effectively.

HOW WE CREATE WEBSITES

We want our clients, after creating and publishing a website, to be able to independently and easily operate it and add new content.

We create our projects using the WIX website building platform.

After the project is completed, we provide you with a website along with a short instruction on how to use it.

START WITH THIS

BASIC WEBSITE

Price includes:

- A website template with a graphic theme, fonts and color palette,
- Home page with content provided by the client,
- Setting basic SEO features,
- Page release.

The price does not include:

- WIX premium plan costs,
- Creating and connecting an individual domain.

PRICE: 150 € + VAT

DELIVERY TIME: 7 days

ADD TO YOUR WEBSITE

SUBPAGE

A subpage that contains texts, photos and videos, e.g. biography, project, description of activity.

PRICE: 20 € + VAT / 1 subpage

FORM

Any form to be placed on the website (e.g. contact or application form) along with the creation of additional subpages containing documents regarding the Privacy Policy and Personal Data Protection (GDPR).

PRICE: 20 € + VAT

The price does not include the costs of legal services and preparation of GDPR documents.
(...but we'll tell you how and where to do it :))
